

John Nangle  
Homework 2/1  
ATMO 529

The website I would like to submit is the International Energy Data and Analysis website hosted by the US Department of Energy. The particular URL, (<http://www.eia.doe.gov/emeu/iea/carbon.html>) contains datasets in .xls format for the amounts of CO<sub>2</sub> released by various countries around the world, including the United States. This data covers the years 1980 through 2004 or 2005 depending upon the file.
