

Gouri Prabhakar

Homework #1

ATMO 529

1. <http://ag.arizona.edu/AZMET/az-data.htm>

The Arizona Meteorological Network

This website provides meteorological data and weather-based information including temperature, humidity, solar radiation, wind and precipitation. It provides data (hourly and daily) since 1987 in comma delimited ASCII format that loaded into most databases. The data is acquired from a number of weather stations spread over southern and central Arizona.
